

3D Exam and (20) Sketches- DUE BY WED 5/22

Directions: Create resource resources/mini posters for **all three** of the prompts below. You should spend a **minimum of 30 minutes per poster/prompt**, using the FULL TIME allotted for the exam review. If you run out of time, just write me a note and tell me why. I am looking at the **quality of the work and the depth of knowledge**. Pretend you are making this for someone that is brand new to the class- **you are teaching them about each topic**. Each resource poster should;

- have the **topic/prompt in a large, bold manner** (*bubble/block/graffiti letters*) to grab the viewers' attention.
- have **step by step** 'how to/explanation' **diagrams** and include the related **definitions**
- Consider creating a 'character' to help 'teach' the information in each of your posters
- Include borders, add color...should look like a **professional poster**
- Size is a standard sheet of paper unless you would like a larger paper

Your goal is to show that you have reached level 4 understanding on the four topics you choose. Level 4 means that you understand and can teach someone else about the topic.
